

HACKBIOS 2K26

PPT SUBMISSION GUIDELINES

Round 1 • Online PPT-based selection • Use the official HACKBIOS PPT template

IMPORTANT: Only the provided HACKBIOS PPT template will be accepted. Do not create your presentation in a different template.

WHAT TO INCLUDE

- 1. Problem** — Define the problem, target users, and need.
- 2. Solution** — Explain your proposed solution and how it addresses the problem.
- 3. Key Features** — Highlight core functionality and innovation.
- 4. Workflow** — Show the user/system workflow with a clear diagram.
- 5. Tech Stack** — Mention technologies, APIs, models, databases, and components.
- 6. Impact & Feasibility** — Cover impact, implementation, scalability, and future scope.

DESIGN & CONTENT

- Keep text concise and easy to scan.
- Prefer diagrams, workflows, mockups, and screenshots where useful.
- Maintain consistent fonts, spacing, alignment, and hierarchy.
- Keep all content readable at presentation scale.
- Mention external APIs, datasets, libraries, models, or research used.
- Never include passwords, API keys, access tokens, or confidential information.
